

Edmonds eLearning Academy

Mission Statement of School and District

The Edmonds School District engages students, staff, families, partners and the broader community in the district's Strategic Direction. Together, along with every school, results have been identified that we want for our students. The continual improvement of our schools is essential in providing increased student performance and quality results. Innovative, exemplary, and research-based programs, coupled with professional development, focused and aligned resources, and community participation in decision making and planning are essential elements in improving schools. For more detailed information, please visit our school's improvement plan or give us a call at your convenience.

About Us

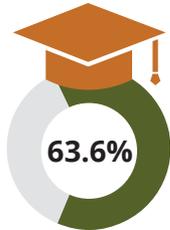

The Edmonds eLearning Academy is an online learning community that serves any Edmonds School District student in grades 7-12. The majority of our students are part-time or blended, meaning they take one or two classes with us and the rest at their traditional school. We have over 100 full-time students for whom we provide all of their educational needs. Our school and classes are free if a student takes a course within their regular six-period day.

What sets us apart from other online schools? We have an on-site Student Learning Center where students can receive help from Edmonds School District certified teachers. The Student Learning Center and our success with students gave us the distinction of one of the Top 10 Alternative Learning Experience (A.L.E.) Schools in the state of Washington. Last year, 1 in 6 graduates of the Edmonds School District had taken an eLearning course and we expect that number to continue to grow.

Academic Accomplishments and Goals Strategic Direction Focus Areas

Our Mission: "Empowering students with flexible pathways to success."

- eLearning teachers and staff will provide one-on-one support through the orientation process. This process includes supporting our families with our parent portal, understanding the student expectation form, and the support systems in place to help with academic success.
- The EeLA Principal and Counselor, along with a teacher, will be responsible for full-time family orientations. This will include parent/family support and strategies, review of the attendance policy, and academic support of our students by the counselor. IEP/ELL students will have an added support by our IEP/ELL Coordinator at the orientation.
- Full Time students are required to attend the student learning center. 7th-10th grade are required to attend 2 days a week for two hours each day. 11th-12th

Continued from Page 2

graders are required to attend one day for 2 hours. This day is chosen at orientation and is their required attendance. Students are welcome to attend as frequently as possible to receive help from our highly qualified, certificated teachers.

- eLearning teachers will provide learning workshops for all eLearning students to engage and motivate students in either specific subjects or in areas of interest to

our students.

- eLearning teachers will be customizing their online courses to provide more choice with the purpose of engaging our online students.

eLearning teachers will create a culture of learning by conveying an expectation of high levels of student effort and by demonstrating a high regard for students' abilities.

- eLearning teachers will work with students in the Student Learning Center to learn how to set realistic goals, meet their academic goals, manage their time using their assignment calendar and practice self-advocacy.
- eLearning teachers will give focused feedback to students as frequently as possible to enrich the curriculum for the students, improve student learning, and to build relationships.
- eLearning staff will continue supporting trauma informed practice by utilizing a social-emotional team to identify students of concern and implement PBIS supports and interventions.

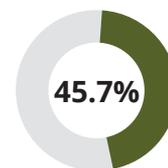

Additionally our goals always reflect the ability of our students to earn credits towards graduation and an increase in the number of students who are successful with online learning.

State Assessments

Washington students are tested annually by the state to assess their progress as they move through school. In high school, students take tests in English language arts, math and science. Please see [our School Report Card](#).

How You Can Help

Our parents and families are an intricate part of our team. Attending orientation with your student(s), monitoring your parent portal, responding to our bi-yearly family survey, and feedback are ways in which our families are ongoing sources of support to our school.

Financial Resources

Annually, we produce a Citizens Guide to the District's Budget. One of our highest priorities is being excellent stewards of our community's resources. Each year, we involve staff, students, families and community members

in helping us to set budget priorities. For more information on school funding, we encourage you to refer to the [2017-18 Citizens Guide to the Budget](#).

The state provides \$8,662 per pupil to our District

About Our Building

We are located on the campus of College Place Middle School. We are centrally located in the District near many of the high schools, Edmonds Community College, and the District office. Our Student Learning Center is in room 31 and our office is in room 30.
