Patrick C. Murphy, Ed.D
Assistant Superintendent

Serving the communities and students of Brier, Edmonds, Lynnwood, Mountlake Terrace, Woodway, and portions of Snohomish County

February 2017

Dear Parent/Guardian:

Your child's results from the November 2016 state tests are enclosed. The November test administration was an opportunity for high school students to complete their state testing graduation requirements.

Required tests vary by expected year of graduation. For information about state testing and which tests are required for graduation, please refer to the enclosed handout *State Testing Graduation Requirements*. This information is also available in additional languages on the district website: <http://www.edmonds.wednet.edu/TestingTranslated>. Also, the state's Resources page (www.k12.wa.us/Resources) has many handouts that provide expanded information for families about state testing and learning standards.

If you have any questions about your student's score report, you may contact the district Assessment Office at testing@edmonds.wednet.edu or call 425-431-8378.

Your child's learning is extremely important to us. We want to partner with you to make sure your child learns the skills needed, not only to pass the state assessment and complete all state and local graduation requirements, but also to be prepared to achieve his/her goals after high school. Your child's principal and counselor will be happy to talk with you about this report and the best next steps in his/her high school career.

Sincerely,

Patrick Murphy
Assistant Superintendent for Secondary Education
