

Accountability Goals

High School Graduation Rate Goals

The Edmonds School District Board of Directors will annually adopt district-wide graduation goals and direct each high school to annually establish goals, subject to board approval, to increase the percentage of on-time graduates receiving a high school diploma.

District and School Reading and Mathematics Improvement Goals

The board will adopt district-wide performance improvement goals for English Language Arts and Mathematics and direct each school in the district that administers the statewide assessment to adopt performance improvement goals to increase the percentage of students meeting the standard in English Language Arts and Mathematics.

Once a year the board will issue a report to families and present it in a public meeting. The report will include the following:

1. District and School Improvement Plans;
2. Performance relative to the Key Performance Indicators; and
3. Family Engagement resources to assist students in meeting the state standards.

Annually, the district will report the district's progress toward meeting the district and individual school goals. District and School Improvement Plans can be found on the district website under About Us/District/School Learning Improvement.
