

Educational Research

All staff members are encouraged to participate in research and/or research projects that can reasonably be expected to contribute to improved educational opportunities for students. Such research projects may be implemented subsequent to a review which ensures that student and/or teacher participation in the research is voluntary. Such review shall be made by an appropriate team of district personnel. Research participation and projects will be approved by the superintendent or designee.

Adoption Date:
Edmonds School District
Revised Dates: 01.19.93; 12.06.17
