

Procedure Emergencies

Emergency Drills:

A. Administration and Auditing:

1. Through the District Safety office, the School District shall be responsible for administering and auditing all school drills and for creating a comprehensive emergency response policy for the District in accordance with state law.
2. The District shall enforce and audit compliance with drill performance and the comprehensive emergency response policy.

B. Staff Responsibilities:

1. School administrators will be responsible for ensuring full participation of all building occupants during a drill in accordance with the drill and emergency response plans.
2. School administrators will be responsible for documentation of all drills and emergencies in Rapid Responder.

C. Emergency Response and Drill Performance

1. The District will maintain a Comprehensive Emergency Response and Recovery Plan (CERRP)
2. Information in regards to drills and emergency response will be maintained in the District CERRP
