

Procedure Community Use of School Facilities

Facilities of Edmonds School District, including all schools, grounds, support sites, and unoccupied buildings, are public assets owned by the district and integral to the mission of the district. The district encourages the responsible use of its facilities by the community, so long as that use does not conflict or constrain the educational mission of the district, or inhibit its normal activities.

This regulation sets forth the requirements and guidelines for the occasional use of district facilities by the community. It does not apply to activities scheduled through other public entities that have interlocal agreements with the district to schedule and manage community use of district indoor or outdoor facilities. It also does not apply to facilities leased from the district through short or long-term contracts. It is applicable to all other users of district facilities, including school district employees who wish to schedule use of facilities for activities that are not sponsored by the school or district.

Important! Any regularly scheduled school activity or district sponsored community event shall have priority in the use of district facilities. The Community Use Office shall make every attempt to notify a displaced community user in advance and reschedule or relocate displaced events.

Important! When school is closed for any reason, all community use will also be canceled.

Important! At no time may any facility user sublet district facilities to a third party.

A. ADMINISTRATIVE RESPONSIBILITY FOR APPROVAL/SCHEDULING

Indoor use of operating schools, and all district-level facilities, outdoor fields/facilities, including the district stadium and parking lots: Director of Facilities Operations

Kitchens: Director of Food Services, in consultation with the school principal

B. FEES FOR USE OF DISTRICT FACILITIES

Fees shall be approved by the Board of Directors and implemented under the direction of the Director of Facilities Operations. User classifications for determining fees and priority are defined below. Current fee schedules are available on the district website, www.edmonds.wednet.edu; under the Community tab and link to Community Use of District Facilities; or by calling the Community Use Office located in the field house at Lynnwood High School at 425/431-3844 or 425/431-5312.

The district recognizes that not all events fit exactly into these classifications and a few may be of an extraordinary circumstance. These situations are very rare and classification and fees will be determined by district staff.

If a community use event fits largely within a classification, those fees will apply and the event or user will not be exempt from classification or fees.

All decisions of the district are final. The district reserves the right to deny use of its facilities when, in the judgment of the Director of Facilities Operations, it is not in the best interest of the district.

2. Priority for facility use is by Group Classification with highest priority for Group 0, followed in order by Group 1, 2A, 2B, 3 and 4.
3. An organization which has used a facility in prior consecutive years should ordinarily be given priority of use within Group category, while new users will be accommodated as feasible.
4. An organization which has continuous use of a building space during the school year and whose activities would be seriously handicapped by exclusion during the summer months may petition in advance for their first summer date for those activities requiring indoor facilities.
5. Additional priorities in scheduling time of use: a) Activities for students should be scheduled for early evening hours. Adults should be scheduled for later evening hours; b) Traditional indoor sports have priority over outdoor sports when scheduling an indoor facility.

11. When a facility is closed because of inclement weather or other emergency, all community use activities are canceled during the closure period. Each user is responsible for providing notification of such closure to its invitees.

K. INSURANCE

All applicants are required to provide a valid Certificate of Insurance in the amount and with the coverage specified on the current fee schedules. In addition, all applicants must provide an Additional Insured Endorsement (AIE) form naming Edmonds School District as primary, non-contributing additional insured on their insurance policy. The district also reserves the right to modify insurance requirements for exceptional situations, as determined by our Department of Risk Management.

QUESTIONS AND ANSWERS REGARDING FACILITY USE

1. Why is a Certificate of Insurance and an Additional Insured Endorsement required?

Community use of school and district facilities is not insured through the district's insurance policy. These documents provide evidence that the user is providing insurance coverage for any liability that occurs during their use of the facility.

2. Who is required to provide an additional insured endorsement?

All users, except Group 0.

3. Do we need to submit an online scheduling request or fill out a Facility Use Permit if we are a Group 0 user (a program of the district -- like a school soccer team) and we want to use a building in the evening or on a weekend for a banquet?

Yes, either an online scheduling request or a Facility Use Permit must be completed because it secures the room, avoids double bookings, notifies the custodian that the room will be in use, alerts the user of what is expected of them and gives the district and user a record of the event. There is no fee or insurance certificate required.

There must be an employee of the district present at all times during the function to supervise the activity, and if applicable, to make sure the facility is locked after use. If the activity requires additional custodial time, a fee will be charged. All facilities used are to be left in the same or better condition than they were found.

4. Are district employees required to submit an online scheduling request or a Facility Use Permit, pay applicable fees and provide insurance documents for a non-district sponsored activity?

Yes, district employees who use a facility for non-district sponsored activities are required to comply with the Community Use of Facilities Regulations. Examples include, but are not limited to, employees that want to use a gym for any non-school sport practice, game or exercise, weight rooms, or classrooms.

5. Can a full time employee of the district work as a site supervisor?

Full time classified employees who are eligible for overtime (i.e. custodians, para-educators, office personnel, or any other "non-exempt" employees) may not work as a site supervisor. Our standard hourly rate for a site supervisor is inadequate to pay overtime rates for regular district employees.

Part time classified employees may work as a site supervisor provided that their total hours do not exceed 40 hours per week.

If a site supervisor is not available and the group is willing to pay more to cover the full costs of overtime pay, this restriction may be waived on a case-by-case basis by the Director of Facilities Operations.

6. How are the fees that are collected used by the district?

- Scheduling Fee – deposited in the property management budget to help reimburse district costs.
- Custodial Fee – deposited in the budget that pays the cost of custodial overtime related to facility use.
- Site Supervisor Fee - deposited in the budget that pays the cost of a site supervisor, to pay for a person focused on protecting the building and contents during facility use; responsible for building security and trained to handle facility-related emergencies.
- Room Rental Fee - deposited in the budgets that pay the costs of utilities and custodial supplies, to help reimburse the cost of utilities (electricity, water, garbage, natural gas, and sewer) and supplies (toilet paper, paper towels, hand soap, cleaning supplies) related to facility use.
- Kitchen Use Fee - deposited in the Food Service budget to help reimburse the cost of returning the kitchen to the stringent health and safety standards mandated for school meal preparation and service.
