

Soundview School Summer Programs

Soundview School offers enriching summer programs to children ages 3 through 12. Our week-long programs offer campers the opportunity to learn, play, and create while exploring science, technology, engineering, arts, and mathematics. Each week is a unit of inquiry that allows students to explore topics from all angles.

Register today!

6515 195th St SW, Lynnwood, WA 98036
