Designated School Nights
 2017-2018

Below is the list of dates that will be designated specifically for elementary nights, middle school nights, and high school nights.

These designated nights are set for the following important reasons:

- To avoid having schools in the same feeder pattern scheduling schoolwide events the same night, putting families with students at more than one level (e.g. middle and high) in a difficult scheduling situation;
- To avoid school events being scheduled the evening before a holiday or non-student day or evening of or day of religious holidays, celebrations or time periods of significance.
